20 years building mobile consumer products, from zero-to-one launches to growing mature apps. I find the behaviors that predict activation, retention and payment, then design and test the experiences that move them.

EXPERTISE

Acquisition & onboarding
Paid and organic product surfacing, install to first moment of value.

Activation & conversion
First value moments, paywalls, offers and plan strategy, trial to paid.

Habit & engagement
User journeys, session design, comeback mechanics, progression milestones.

Behavior & experimentation
Pattern detection, trends and predictive signals, validated through A/B tests.

EXPERIENCE

Senior Product Manager · Synaptic Labs / Phoenix Games — 2022 to Present

Peak Brain Training (subscription) · Knighthood · Warhammer Combat Cards · iOS & Android · Remote

- Lead a subscription brain-training app built around daily habit, with a cross-functional squad.
- Own activation and monetization: onboarding, paywalls, offers and plan strategy.
- Run A/B tests end to end, from hypothesis to analysis, with AI built into daily product work.

Growth Product Manager · The Other Guys — 2018 - 2022

Interactive story apps · iOS & Android

- Owned growth of active users and free-to-paid conversion.
- Redesigned the paywall and offers around user segments; ran the roadmap and experiments.

Product Owner · Etermax — 2017 - 2018

Zero to one · new app in the Trivia Crack franchise (250M+ downloads)

- Defined the product from inception: core loop, progression and monetization.
